

5 Courses

**Programming for Everybody
(Getting Started with
Python)**

Python Data Structures

**Using Python to Access Web
Data**

**Using Databases with
Python**

**Capstone: Retrieving,
Processing, and Visualizing
Data with Python**

May 11, 2022

Haruta Tasaki

has successfully completed the online, non-credit Specialization

Python for Everybody

In this Specialization, you learned fundamental programming concepts through using the Python programming language. You learned how to install Python and write your first programs, and you can describe the basics of the Python programming language. You can use variables to store, retrieve, and calculate information and you can utilize core-programming tools such as functions and loops.

Charles Severance
Clinical Professor,
School of Information
University of Michigan

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
